STRIKE HAS A DEPRESSING EF-FECT ON ROADS INVOLVED.

New York, Sept. 14.—The stock market ook on a much more decided tone today, adications of liquidation gathered force, nd in the late dealings the profes rices down all around the room. They set with considerable success in bringing offerings at the decline, and when covered on a moderate scale the ralwere so feeble that they renewed atmaking the close of the market,
a active and easy. The coalers were
most notable sufferers, though not on
largest volume of selling in the list.
Jersey Central fell 24 points and
kawanna and Readings first preferred
over a point each. But the weakness
quite general and well distributed
agh the list, rallroads and industrials
ering alike. Sugar enjoyed a period of
jeth, but closed a point below last offerings at the decline, and when steel stocks were generally heavy, number of them were off a point er. DAY EXCURSIONS

GENERAL OUTLOOK IS DECLAR-ED TO BE IMPROVING.

New York, Sept. 14 .-- R. G. Dun & Co.'s

The tropical storm that devastated the gulf coast, almost wiping out the city of Galveston and doing damage in other parts of the country, caused a reaction in the volume of business at the south, and railroads in the gulf region have probably not shown their maximum losses of earn-ings as yet; but even after such a catas-trophe recuperative power is shown. An added cause of hesitation in business is the order for a strike of the anthracite

the order for a strike of the anthracite coal miners.

Otherwise the working force has increased this week, for operations are resuming at steel mills, and the Michigan Feninsular car plant and the Decring-Harvest works have started up, after seven weeks of idleness, with 3,000 hands each. From many quarters of the west and southeast a better distribution of merchandise is reported in jobbing and retail circles.

The weather has continued favorable for the maturing corn crop, with cutting progressing and the crop generally beyond danger; but damage to cotton by the storm is still an unknown quantity. The prices of staple commodities are higher for the week, hoisted by the sharp rise in cotton, but in manufactured goods there is little change, though a steady increase of business at the current level is satisfactory.

Big Bulge In Cotton. -No. 2, 213/6221/2; No. 2 white, 241/4;

Big Bulge In Cotton.

Big Bulge In Cotton.

Cotton went last week to the highest price in ten years, and a large short interest was awaiting reaction. Instead there came news of the disaster in Texas and sensational reports that 1,000,000 bales had been destroyed. At the New York exchange trading was far in excess of all previous records, and prices rose by bounds. Subsequently there were less exaggerated reports from the south, but the market failed to respond and middling uplanda advanced to II cents.

The rise in the raw material caused a sharp advance in cotton goods. In one week standard brown sheetings rose from 5.67 cents to 6 cents; wide bleached sheetings from 20 to 21 cents; standard brown drills from 5.67 to 5.87 cents.

Buyers who have been delaying for weeks are anxious to secure liberal supplies, both instant and distant. Stocks in first hands were cleaned up and sellers generally withdrew from the market.

Wheat rose above 80 cents again, in the face of receipts for the crop year thus far. \$415,956 bushels larger than last year, while exports decreased 10,251,388 bushels, including flour. Reports of heavy rains in some sections and injury to the croon, with better inquiries by foreign houses, explain the advance.

More orders are being received at iron mills and prices are steady. In structural and finished material there is much business and activity is becoming almost universal in the iron region. Steel rails are awaiting for the agreement as to prices, which is expected to be rached next week. A reduction in keeping with other steel products is considered certain, and then the market will be on a settled basis. Some large markers favor \$27.50 as the new basis and believe that nearly 2,000,000 tons would be ordered at that figure. Ship building was never more active. and a feature was a contract for a coal pier to be used for the export trade.

Better Outlook For Footwear.

Better Outlook For Footwear.

Better Outlook For Footwear.

Boots and shoes begin to recover, after many weeks of idle wheels throughout New England. Orders are coming forward freely and a return to normal conditions is in prospect.

Last week's shipments from Boston were only 57,142 cases, which is the smallest amount since the decline began, but increasing purchases promise an early gain in forwardings. Conditions are similar in the wool market, where sales last week aggregated 2,643,000 pounds, against 12,056,500 pounds a year ago. Prices do not fall as might be expected in such a dull season.

Failures for the week were 195 in the United States, against 129 last year, and 30 in Canada, against 32 last year, and 30 in Canada, against 32 last year.

Speculation Market Still Has Tendency to Hesitate.

pigs, 3.50(75 ment demand for bonds and dividendpaying stocks is somewhat slackened.

The market was not stimulated by the
result of the Maine election, which, it
may be remarked, was generally structed in a favorable sense by the street.
Politics, however, continue to be the principal topic of discussion, and the market is settling down to a belief that while
no political 'scare' may develop, the uncertainties of the situation as regards the
presidency will continue to restrict speculation and to render investors cautious.

In one department of the list there was
an appearance of genuine weakness, the
anthracite coal stocks declining somewhat on the increasing prospects of a
miners' strike. Even in this group, however, there was some support shown at
concessions, though the announcement
that the strike would in all probability
begin next week tended to create more
or less bearish talk and feeling in regard
to the general list. In this connection
the bearings of trouble with the labor in
such a great industry as anthracite coal
on the political outlook has not been lost
sight of by the street. London seemed
to take an unfavorable view of the matter, but the London markets are still dull
